Radiation
accidental radiation exposure **287**
autopsy study of leukemia in atomic bomb survivors, Hiroshima-Nagasaki 1949-1969 **287**
blood storage and the rate of chromosome aberrations after in vitro exposure to ionizing radiations **420**
breast cancer associated with repeated fluoroscopy **564**
cancer induction in man from internal radioactivity **211**
carcinogenicity of inhaled plutonium-238 in the rat **683**
chromosome aberration analysis as a dosimetric technique in radiological protection **125**
comparison of the effectiveness of CaDTPA and ZnDTPA in removing ^{241}Am from the rat **210**
comparison of the effectiveness of CaDTPA and ZnDTPA in removing ^{241}Am from the rat **685**
dietary protection against ionizing radiation **420**
disposal of nuclear wastes **564**
distribution and removal of DTPA of injected ^{252}Cf in the rat **683**
distribution of plutonium and americium in occupationally exposed humans as found from autopsy samples **211**
effect of oxathio on the uptake of absorbed doses from polonium-210 in the rat **565**
effects of penicillamine on the body burdens of several heavy metals **125**
environmental and fallout gamma radiation protection factors provided by civilian vehicles **491**
evaluation of internal exposure to radionuclides of I, Cs and Co during maintenance operations on primary steam leak in a nuclear power station **684**
evaluation of uranium mine atmospheres by measurements of the working level and radon **491**
exposure-response curve for radiation-induced lung tumors in the mouse **211**
exposure-response curve for radiation-induced lung tumors in the mouse **684**
a five-year inhalation study with natural uranium oxide (UO_2) dust: II. postexposure retention and biologic effects in the monkey, dog and rat **210**
a five-year inhalation study with natural uranium oxide (UO_2) dust: II. postexposure retention and biologic effects in the monkey, dog and rat **685**
hazards from the industrial use of radioactive static eliminators **564**
health effects of electricity generation from coal, oil and nuclear fuel **564**
the incidence of malignant lymphoma and multiple myeloma in Hiroshima and Nagasaki atomic bomb survivors 1945-1965 **684**
infant and neonatal mortality rates during pre- and post-reactor periods for geographic areas adjacent to Shippingport, Pennsylvania **683**
intake and excretion patterns of naturally occurring radium-226 in humans **564**
intracellular plutonium: removal by liposome-encapsulated chelating agent **125**
late effects of radiation: carcinogenesis **210**
late effects of radiation: carcinogenesis **684**
lung cancer among uranium miners in the United States **286**
Manhattan Project plutonium workers: a twenty-seven year follow-up study of selected cases **285**
meat-wrapper's asthma — a new syndrome **287**
need for radiation protection **286**
nuclear power — a good neighbor? **125**
personnel monitoring with film and thermoluminescent dosimeters for high exposures **285**
plutonium: biomedical research **565**
the potential eye exposure to personnel using fluoroscopic techniques **212**
previous radiation exposure in patients with leukemia **286**
prostatic carcinoma at autopsy in Hiroshima and Nagasaki Japanese **285**
radiation risk in pregnancy **563**
radiography incidents and overexposures **125**
the radiological significance of X-ray leakage from electron microscopes **683**
RBE and OER determinations for radium and californium 252 **682**
removal of zinc from humans by DTPA (diethylene triamine pentaacetic acid) chelation therapy **211**
renal tumors in parabiosed irradiated rats **212**
scintillation imaging in generalized and localized radiation nephritis **683**
skeletal location of radiation-induced and naturally occurring osteosarcomas in man **684**

two cases of tritium fatality **286**
uniformity of radiation-induced mutation rates among different species **286**

Surgery
chemical acidification of wounds. an adjuvant to healing and the unfavorable action of alkalinity and ammonia **490**
chemonucleolysis: better than laminectomy? **287**
cholesterol gallstone dissolution **288**
clinical implications of knee biomechanics **126**
compressed air injury of the eyeball: report of six cases **126**
the continuing problems of perforated appendicitis **757**
extremity complications of drug abuse **288**
factors affecting survival from acute subdural hematoma **685**
the fate of the negative appendix **288**
fracture healing **685**
heparin and gallstones **757**
incidents and complications of gastric vagotomy **757**
large burns in humans: treatment with heparin **126**
long-term results after vein surgery **491**
malignant hyperthermia of anesthesia **685**
occult rupture of the spleen **686**
partial mastectomy — unproven treatment for patients with potentially curable breast cancer **421**
perirectal abscess **686**
pitfalls of local excision in the treatment of carcinoma of the breast **288**
the significance of the symptoms of carcinoma of the rectum **288**
surgical treatment of regional enteritis **287**
thyroid suppression **565**
trauma and oncogenesis **565**

Work Physiology
a biokinetic model for workplace design **491**
biomechanical computerized simulation of human strength in sagittal plane activities **421**
effects of nine weeks of physical training on aerobic capacity and body composition in college men **491**
lordosimetry: a new technique for the measurement of postural response to materials handling **421**
muscular endurance in ipsilateral and contralateral arms: influence of training and inactivity **421**
the physiological basis of the traumatic vasospastic disease: a sympathetic vasoconstrictor reflex triggered by high frequency vibration? **421**
a study of the load on joints and muscles in work with a pneumatic hammer and a bolt gun **757**
vibration and its relation to occupational health and safety **491**
